### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward M. Weisz, Attorney for Applicant on Thursday, October 6<sup>th</sup>, 2005.

The application has been amended as follows:

Claim 44:

Please Cancel

Claim 55:

(Please insert at line 14) --character icon, predetermined user preferences,--

(Please insert at line 19) --provider and wherein the character enhancements are obtained per predefined authorization rules from the service provider and/or the target website in addition to the predetermined user references; and—

Claim 63:

(Please insert at line 14) --character icon, predetermined user preferences,--

(Please insert at line 21) –service provider and wherein the character enhancements are obtained per predefined authorization rules from the service provider and/or the target website in addition to the predetermined user references; and—

**Drawings:**

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: Specifically, drawings 3(a)-(c) have not been labeled. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

After extensive searching and analysis of the best prior art in light of Applicant's claimed invention, Examiner finds that the Chelliah '887, Farmer '830 and MUD/Smith/Cowan references all require a "centralized" client/service provider, (i.e.:

electronic mall), server connection wherein there is no direct access between the client/consumer device and the individual suppliers of goods, (target websites/stores). In contrast, Applicant's invention allows for multiple communication paths wherein the user may access the service provider and the target website and moreover, the target website, using a unique user identifier, may access the user's record at the service provider without user intervention.

Thus, Examiner is persuaded by this unique use of the target website as a proxy device, between the user and the service provider, within the ecommerce system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner additionally distinguishes Patent Pub. US 2003/0050831 A1 to Klayh, as requiring the detection of customer activity, (client interaction), to trigger communication between network commerce components.

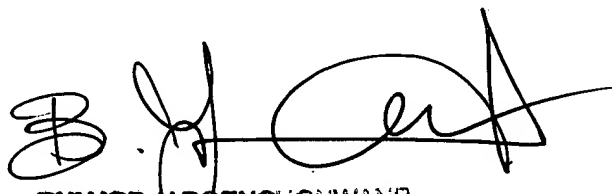

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arrienne M. Lezak whose telephone number is (571)-272-3916. The examiner can normally be reached on M-F 8:30-4:30.
